Personal Statement

A team player who is committed to learning, motivated, adaptable, and a responsible developer with a strong systems mindset, seeking a position as an Android developer. I have a methodical, customer-focused approach to work and a strong drive to see projects through to completion. My immediate goal is to interact fully and work with the large society, growth-oriented organization, or institutions dealing with people from all walks of life and eventually leaving a more efficient organization and united people.

Highlighted Software Applications

HAKI APP - Front-End Developer, Mobile Software Engineer

Feb 2020

URL: <https://play.google.com/store/apps/details?id=com.knownafrique.haki&hl=en>

HAKI APP allows every Kenyan to access legal advice at affordable rates. The application connects you with a lawyer specialized in your legal matter – via phone call.

- Implemented a booking feature.
- Integrated the M-Pesa payment system within the application.

KULA POA - Front-End Developer, Mobile Software Engineer

Oct 2020

URL: <https://play.google.com/store/apps/details?id=com.app.kulapoa>

Kula poa is an android application that makes it easier to purchase goods online and get them delivered at your doorstep. It's an application that I did for a client together with a team of three developers.
